**Subject:** Re: Follow up contact list: 9/21 meeting re: Flint water / lead issue

I want to also thank everyone for the commitment to working together and assembling on such short notice. We will have a draft ready for input from everyone within a couple of days.

Howard:

This email includes the contact information of those present in today's meeting between City of Flint leadership and local physicians, held to discuss the lead issue in the City's water supply and the need to develop and release a health advisory to the community. I have also included the recommended individuals from the Health Department (Mark Valacak, Dr. Gary Johnson, James Henry) as suggested by Dr. Carvallah so that the City and County Health Department can collaborate on the health advisory's development along with this group.

I will defer to Dr. Hanna-Attisha for sharing of her slides (those that are available to distribute), which included detail on potential points of community education for inclusion within the to-be-developed health advisory.

We will look forward to receiving a draft from the City for collaborative review in the next few days. Thank you.

Kirk D. Smith, MHSA
